

HALLOWEEN CAN BE SCARY, STEM SHOULDN'T BE!

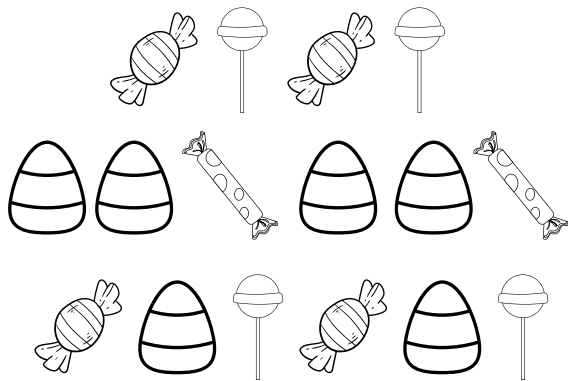

Early STEM skills help set your child up for success in school and life! Talking about these concepts can happen anywhere at anytime. Use these activities below to help your child see that STEM exists everywhere – even with their Halloween candy!

PATTERN MAKING

What comes next in these patterns?

Try making your own!

SORTING

Did you get lots of different candy?

Try sorting by:

Shape

Color

Size

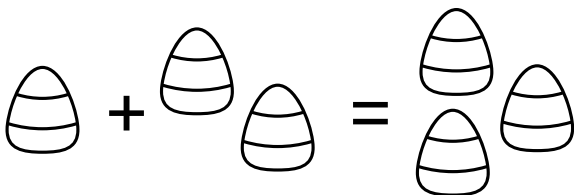

Flavor

Your favorite to least favorite!

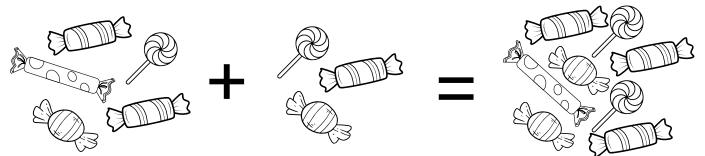

CANDY MATH

Fill in the blanks! If you add up the candy below, how many do you have in total?

What happens if someone eats some of the candy?

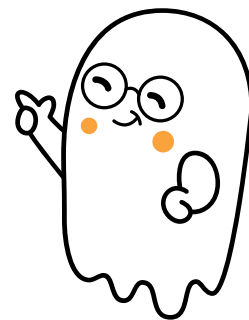

$$\square + \square = \square$$

$$\square + \square = \square$$

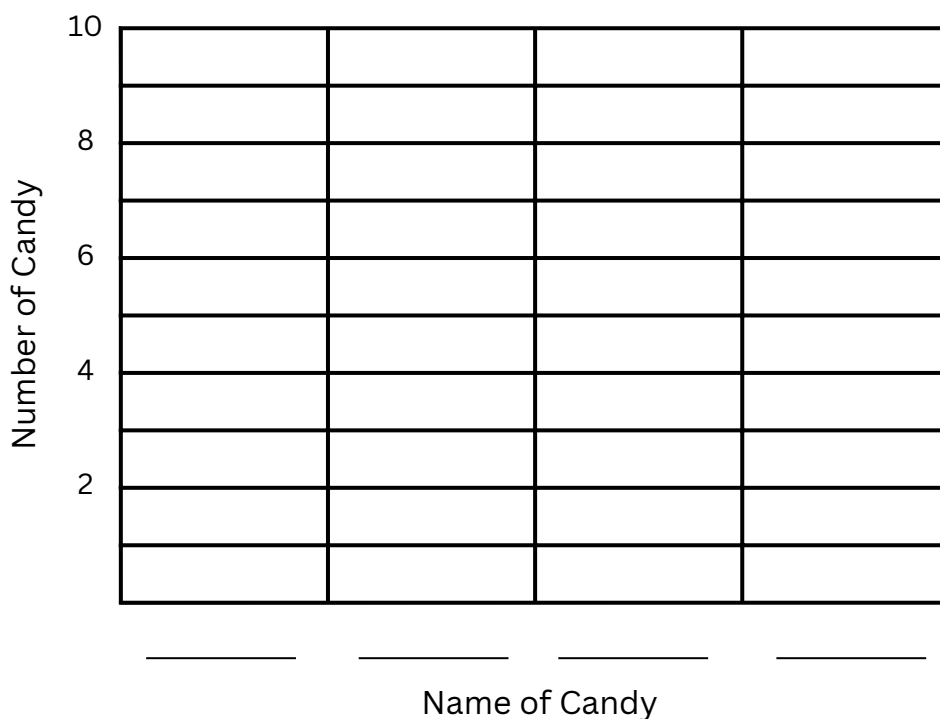

MAKE YOUR OWN: CANDY GRAPHING

COLLECT YOUR INFORMATION

Name of Candy	Number of Candy

CHART YOUR FINDINGS

LOOK AT YOUR RESULTS

Looking at your graph, what do you notice?
Which candy has the most? Which has the fewest?
How many do you have of your favorite candy?
