babies, & Women's
health

MATH HERO

Doctors for women, girls, and newborns like Kameelah use math to:

- Check the health of babies and mothers by reading charts and graphs.
- Check newborns' weight and growth with scales.
- Calculate the proper dose of medicine to help patients feel better.

HELPING WOMEN AND GIRLS THROUGH MEDICINE

- Kameelah Phillips is a doctor who works with women and girls. She has a business called Calla Women's Health.
- Kameelah, as part of her job, delivers babies and makes sure both the baby and mother are healthy.
- Kameelah also teaches women and girls about their health so they can be comfortable in their bodies.
- Kameelah enjoys volunteering. She helped provide medical care to women in Haiti after a bad earthquake in 2010.
