

CHIEF PRODUCT OFFICER

MANUEL BRONSTEIN

"MY BIGGEST GOAL IS TO HELP ENABLE THE METAVERSE!"

Pronunciation:

(man-well Bron-steen)

ROBLOX

Born: Venezuela

Known for: Roblox, & Designing Xbox 360

MATH HERO

Game designers like Manuel use math to:

- Create 3-dimensional (3D) images and shapes.
- Make objects move using formulas and variables. Without math, a video game would be still images of art.
- Decide which new game features fans desire and estimate how much money the company will earn from the updates.

CREATING VIRTUAL WORLDS

- Manuel Bronstein is a virtual world creator. He creates online games and virtual reality worlds.
- Manuel's company made a platform where kids can create games and online worlds on Roblox.
- Manuel's job is to oversee the creation of virtual games in a metaworld. He wants to help children learn more about designing virtual worlds in a safe place.
