

CURRICULUM VITAE

John R. Burgess, Ph.D.
Department of Foods and Nutrition
700 West State Street
West Lafayette, IN 47907-2059

Education

Ph.D. (awarded May 1988), Nutrition, The Pennsylvania State University, University Park, PA 16802

M.S. (awarded August 1985), Nutrition, The Pennsylvania State University, University Park, PA 16802

B.S. (awarded May 1980), Biology, The Pennsylvania State University, University Park, PA 16802

Employment and Honors

Academic appointments

Associate Professor, (1997 – present) Department of Foods and Nutrition, Purdue University, West Lafayette, IN 47907

Assistant Professor, (1990-1997) Department of Foods and Nutrition, Purdue University, West Lafayette, IN 47907

Postdoctoral Research Associate, (1988-1990) Pharmacology Section, Department of Biological Sciences, University of California, Santa Barbara, CA 93106

Research Technologist, (1980-1984) Center for Air Environment Studies, Pennsylvania State University, University Park, PA 16802

Memberships in academic, professional, and scholarly societies.

American Association for the Advancement of Science

American Society of Nutrition

American Chemical Society

Society for Experimental Biology and Medicine

Society for Free Radical Biology and Medicine

Honors

Gamma Sigma Delta, Faculty Award of Merit, 2008

College of Health and Humans Sciences Graduate Mentor Award, 2019

CREATIVE ENDEAVOR, RESEARCH, SCHOLARSHIP

Published work: Graduate Students **Bolded**

<u>Google Scholar Citation Statistics</u>	<u>All</u>	<u>Since 2017</u>

Eskew, M. L., W. J. Scheuchenzuber, A. Zarkower, J. R. Burgess, and C. C. Reddy. 1988. Effects of vitamin E and selenium deficiencies on rat alveolar macrophage release of arachidonic acid metabolites. FASEB J. 2:A411.

Invited lectures presented at regional, national, and international society meetings and/or other educational institutions.

February, 2005 – Botanicals Center for Age-Related Diseases Annual Symposium, Purdue University, West Lafayette, IN, title: “Antioxidant Effects of Naringenin and EGCG in vivo”

October, 2004 – Horticulture Department, Purdue University, West Lafayette, IN, title: “Antioxidant Health Benefits of Phytochemicals?”

August, 2004 – American Chemical Society Annual Meeting, Philadelphia, PA, title: “Antioxidant and Lipid Oxidation Effects of Citrus Flavonoid Consumption”

April, 2004 – The 7th International Conference on Plasma Membrane Redox Systems and their Role in Biological Stress and Disease , Asilomar, CA, title: “Effects of Citrus Flavanone Consumption on the Endogenous Antioxidant Defense System and Oxidative Stress”

February, 2003 – Teleconference/course from TAMU Phytochemicals in fruits and vegetables to improve human health entitled, title: “Antioxidant Health Benefits of Phytochemicals in Fruits and Vegetables: the in vitro and in vivo evidence”

May, 2003 - May Conference presented by Foods & Nutrition Department, Purdue University, West Lafayette, IN. title: “Fruits and Vegetables: the Antioxidant Story”

September, 2003 – Botanicals Center Workshop at Purdue In Vivo Techniques For Botanicals Research, title: “Methods to Evaluate Antioxidant Activity in vitro and in vivo”

May 25, 2001- The International Symposium on Attention-Deficit Hyperactivity Disorder in Taipei, Taiwan, title: “EFAs and the ADHD Condition”

May, 2001 - Academia Sinica, Taipei, Taiwan, title: “Characterization of the Adaptive Response in Rat Liver Induced by Antioxidant Nutrient Deficiency”

March 31-April 4, 2001, Experimental Biology, Minisymposium Chair- Antioxidants and free radical defenses

June 20-24, 1998, IFT Annual Meeting, Atlanta, Georgia. Title: "Antioxidant role of inositol phosphates"

Monsanto Company, August 2-3, 1998, St. Louis, Missouri. "Highly unsaturated fatty acids in children with attention-deficit/hyperactivity disorders"

NIH Workshop on "Omega-3 Essential Fatty Acids in Psychiatric Disorders," September 2-3, 1998.
"Attention-Deficit/Hyperactivity Disorder, Observational and Interventional Studies"

Experimental Biology '97, April 6-9, 1997, New Orleans, LA. Chairman of the vitamin E minisymposium.
"Expanding role of vitamin E in health and disease prevention"

University of Cordoba, Cordoba, Spain, November 8-9, 1996, Cordoba, Spain. "Role of calcium-independent phospholipase A2 in cellular defense against oxidative stress"

International Conference on Polyunsaturated Fatty Acids in Health and Disease, November 4-6, 1996, Barcelona, Spain. "Highly unsaturated fatty acids in children with attention-deficit/hyperactivity disorders"

Department of Foods & Nutrition, University of Delaware, February 23, 1995. "Oxidative stress activation of phospholipase A2: Acknowledging the clean-up crew"

Institute for Environmental Medicine, University of Pennsylvania School of Medicine, October 26-27, 1995. "Antioxidant nutrient status effects on phospholipase A2"

Department of Nutrition, Harvard School of Public Health, January 9, 1990.
Title: "The effect of altered antioxidant defense function on prostaglandin biosynthetic enzymes"

International Symposium on Biological Oxidation Systems. October 23-26, 1989, Bangalore, India. Title:
"Role of glutathione peroxidases in prostaglandin biosynthesis"

Research Grants & Awards Received.

Principal investigator

Purdue Integrative Data Science Education Ecosystem Grant. Development of a Model for Incorporation of Data Science Learning into a non-Majors course to Promote Data Science Ecosystem. Total award: \$41,077. Inclusive years: 2018-2019.

Purdue Research Foundation:XR Grant. The Role of Oxidative Stress and n-3 Essential Fatty Acids in an Animal Model of AD/HD. Total award: \$29,430. Inclusive years: 2004-2006.

National Fisheries Institute. Nutritional Factors in AD/HD. Total award: \$12,000 . Inclusive years: 2005 – 2006.

The Greater Cincinnati Foundation. Nutritional Factors in Attention Deficit/Hyperactivity Disorder. Total award: \$12,000. Inclusive years: 2004 - 2005.

Indiana Soybean Board. Preparation and Comparative Analysis of Polyphenol-Rich Soybean Extracts. Total award: \$11,000 . Inclusive Years: 2004 - 2005.

NIH, Botanicals Center for Age Related Research Pilot Grant . Effect of flavonoids on coenzyme Q metabolism and function. Total award: \$25,000. Inclusive years: 2002 – 2004.

Florida Department of Citrus. Co-Investigators: Rick Mattes, Jon Story and Connie Weaver. Protective Effect of Grapefruit Juice Consumption on Disease Risk. Total award: \$256,000. Inclusive years: 2002 – 2003.

Ross Products Division of Abbott Laboratories, Columbus, OH. Nutritional Management of children with eosinophilic gastroenteritis fed food allergen elimination diets: nutritional analysis of food records. Total amount: \$1,850. Inclusive year: 1997-1999.

PRF Research Assistantship. Essential fatty acid status in children with attention-deficit/hyperactivity disorder. Total award: \$22,132. Inclusive years: 1998-1999.

NIH, Institute of Mental Health. Essential fatty acid status in children with Attention-Deficit/Hyperactivity Disorder. Total award: \$37,000. Inclusive years: 1997-1998.

Scotia Pharmaceuticals Limited, Stirling, Scotland. Effect of Efalex supplementation on blood fatty acid profiles and behavioral measures in children with attention-deficit/hyperactivity disorder. Total award: \$64,000. Inclusive years: 1996-1997.

U.S. Department of Agriculture. Antioxidant Inositol Phosphates. Total award: \$11,000. Inclusive years: 1996-1997.

U.S. Department of Agriculture Hatch Grant. The effect of oxidant stress and nutrient status on fatty acid metabolism. Award: \$1,500/year. Inclusive years: 1991-1996.

ARP Research Assistantship. The role of oxidative stress-mediated activation of phospholipase A2 in cell membrane protection and prostaglandin formation. Award: \$12,000/year. Inclusive years: 1995-1997.

Showalter Trust. Mechanistic analysis of the effect of oxidant stress on PLA2 regulation, cellular expression and secretion. Total award: \$50,000. Inclusive years: 1993-1994.

Purdue Research Foundation. The effect of lipid peroxidation on phospholipase A2 function in the rat. Award: \$9,900/year. Inclusive years: 1992-1994.

AES Assistantship. The effects of increased oxidant stress on phospholipase regulation and eicosanoid biosynthesis in mammalian cells. Award: \$12,000/year. Inclusive years: 1991-1993.
American Cancer Society Institutional Grant. The effects of increased oxidant stress on phospholipase regulation and eicosanoid biosynthesis in mammalian cells.
Award: \$10,000/year. Inclusive years: 1991-1992.

School of Consumer and Family Sciences. Essential fatty acid metabolism in children with ADHD. Award: \$7,500/year. Inclusive years: 1991-1992.

Co-investigator

Grayson-Jockey Club Research Foundation, Inc. – PS: Laurent Couetil, Co-Investigator: J.R. Burgess – The effect of omega-3 fatty acid supplementation in thoroughbred racehorses with equine asthma.

Budgeted \$21,002. Inclusive years: 2020-2022

Animal HealthQuest Solutions – PI: Wendy Townsend, Co-Investigator: J. R. Burgess - Effect of Ocu-GLO Rx(TM) on the progression of Golden Retriever Pigmentary Uveitis. Budgeted \$2,800. Inclusive years: 2014-2018

Novus International – PI: Laurent Couetil, Co-Investigator: J. R. Burgess - Evaluation of Oral AleiraTM Supplementation in Horses with Chronic Lower Airway Inflammation Disease. Budgeted: \$12,000, Total Award: \$25,000. Inclusive years: 2011-2013.

NIH, NCCAM, R01 – PI: U. S. Sajjan, University of Michigan, Co-Investigators: Marc Hershenson, J. R. Burgess, and others - *Quercetin and innate immune modulation in COPD*. Budgeted: \$20,000, Total Award: \$385,000. Inclusive years: 2008-2011

National Science Foundation. G. Weaver, PI, J. R. Burgess, co-investigator. Undergraduate Research Center – Center for Authentic Science Practice in Education. Budgeted: \$11,047, Total Award: \$ 2,300,000. Inclusive years: 2004 – 2009.

Appalachian Center for Translational Research Disparities. A. Clark, Eastern Tennessee University, PI, J.R. Burgess, co-investigator. Use of Omega-3 Fatty Acids to Reduce the Risk of Cardiovascular Disease in Hispanic Type 2 Diabetics in Northeast Tennessee. Budgeted: \$2000. Inclusive years: 2006 - 2007.

NeurogensX, Inc. R. Mattes, PI, J. R. Burgess, co-investigator. Capsaicin Diet Study. Budgeted: \$11,400. Inclusive years: 2004 - 2005.

BASF Corporation. M. Latour, PI, J. R. Burgess, co-investigator. Fatty acids in poultry research. Budgeted: \$2,000. Inclusive years: 2003 - 2004.

Johnsonville Foods, Inc. M. Latour, PI, J. R. Burgess, co-investigator. Evaluation of Dietary Fat Source on Fatty Acid Composition of Pork & Sausages. Budgeted: \$10,700. Inclusive Years : 2002 - 2003.

Illinois-Indiana Sea Grant. A comprehensive research and MAS approach to aquacultural development in the Great Lakes. Budgeted: \$75,000/year.

Inclusive years: 1995-1997

Project Participants; D. LaDon Swann, Paul Brown, Bruce Watkins, Jay Burgess, Jeffrey Malison, James Held, Ron Rosati, Marshall Martin, Jean Riepe.

INSTRUCTION AND GRADUATE TRAINING

Graduate Student Mentorship:

Yan Huang, M.S., 1992

Laura Stevens, M.S., 1995

Yonghong Hu, M.S., 1995

Xianghong Xu, M.S., 1995

Chia-Feng Kuo, Ph.D., 1996

Shun Cheng, Ph.D., 1997
Feng Gao, M.S., 1997
Lingling Shi, M.S., 1998
Wen Zhang, M.S., 1998
Rafael DeCabo, Ph.D., 2000
Juan E. Andrade, Ph.D., 2005
Caryl Antalis, Ph.D., 2006
Kae Won Cho, Ph.D., 2006
Ran Kim, M.S., 2006
Robert Pazdro, Ph.D., 2010
Angela Myracle, Ph.D., 2010
Nadine Hammoud, M.S., 2014
Tom Wilmanski, Ph.D. 2017
Matt Stochelski, Ph.D. 2018
Carrie Terwilliger, M.S., 2020, Ph.D., 2023 (expected)
James Foster, M.S., 2021 (expected)

Courses taught:

Nutrition Science/Foods & Nutrition 303, Essentials of Nutrition for non-majors, 3 credit hours, inclusive years 2000 – present (F, S, Su), flipped and online versions. I oversee all sections. Enrollment now averages 480+ for the flipped, 200+ students online for Fall and Spring semesters, and 160-200 online students in the summer. Participated in IMPACT in 2013 to facilitate flipping the course from lecture to active learning.

Nutrition Science/Foods & Nutrition 436, Nutrition Assessment for majors, 1 lecture and 3 lab hours per week, undergraduate. 2000-2012

Nutrition Science/Foods & Nutrition 590F, Phytochemical Biochemistry and Physiology, 3 lecture hours per week, graduate. Offered every other year, 2002-present.

Nutrition Science/Foods & Nutrition 590L, Lipid Signaling and Cell Function, 1-2 lecture hours per week, graduate. Offered every other year, 2003-2015.

ADMINISTRATIVE

Committee, Leader

College of Consumer and Family Sciences Curriculum Committee, 2003, Chair

Department of Nutrition Science Undergraduate Policy and Curriculum Committee, 2006 – 2014, 2018-present, Chair

Purdue Animal Care and Use Committee, 2016-present, Associate Chair

Committees served

Purdue Animal Care and Use Committee, 1996 – present.

College of Consumer and Family Sciences Curriculum Committee, 2000 – 2006.

Department of Nutrition Science/Foods & Nutrition Teaching Committee, 2006 – 2014.

Statewide Indiana Core Transfer Library Review Committee, 2015-2016.

College of Health and Human Sciences Awards Committee, 2012-2015, 2017.

College of Health and Human Sciences Curriculum Committee, 2018-present.

Department of Nutrition Science Internal Awards Committee, 2014- present

Digital Education Awards and Recognition Implementation Team, 2016.
