- Typical credits are shown, but will vary with specific course selections; 120 total credits required. At least 32 of these credits must be courses taken at Purdue and numbered 30000 or higher (marked with * in plan of study).
- Depending on language placement and Option selected, Cultural/International Diversity Selective might require fewer than 4 semesters to complete, potentially increasing the number of electives.
- This plan assumes BBS E and science-related Core requirements will be fulfilled with courses that fulfill both requirements concurrently. This is not required, however.
- Courses can be arranged in other ways. This is only one possible plan.
