**B2a. Internship Supervision**

Dr. Ruiz serves as a public health preceptor for the public health undergraduate program. In this role she has supervised 8 undergraduate internships. The internship requires that they complete at least 400 hours of community-based public health work. Student interns prepare a contract that identifies a focus project that involves exposing the student to community-based research. Students must meet set objectives and produce a final report and presentation related to the work. Dr. Ruiz meets with these student interns regularly to ensure they are on the right track and provides trainings as needed.
