PURDUE UNIVERSITY

DEPARTMENT OF SPEECH, LANGUAGE, AND HEARING SCIENCES

Clinical Observation Hours: Record Form

Student Name:_____ **PUID#:**_____

**Signature confirms student's participation in debriefing of observation.*

Date	Location	Hours	Disorder Area	SLP/AuD Name (Print)	Signature of Audiologist or SLP	ASHA Number

2020 Standards for the Certificate of Clinical Competence in Speech-Language Pathology: V-C: *The applicant must complete a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology. 25 hours must be spent in guided clinical observation, and 375 hours must be spent in direct client/patient contact.*
Council for Clinical Certification in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association. (2018). Retrieved from https://www.asha.org/certification/2020-SLP-Certification-Standards

***Implementation:** Guided clinical observation hours generally precede direct contact with clients/patients. Examples of guided observations may include but are not limited to the following activities: debriefing of a video recording with a clinical educator who holds the CCC-SLP, discussion of therapy or evaluation procedures that had been observed, debriefings of observations that meet course requirements, or written records of the observations. It is important to confirm that there was communication between the clinical educator and observer, rather than passive experiences where the student views sessions and/or videos. It is encouraged that the student observes live and recorded sessions across settings with individuals receiving services with a variety of disorders and completes debriefing activities as described above.*
