Before I was nervous about so many things - the fact that I'd never been out of the country, the fact that I look obviously foreign, the fact that I did not even speak a single word of [another language]. Despite all that I applied anyway and I'm so glad that I did. My study abroad experience was the #1 thing that I took away from Purdue, and it was the most exciting and carefree time of my life. AND it introduced me to traveling. As an added bonus, I met my best friend through the program and we made so many memories out of it.

- NATHIFA PARKE, CSR Alum (2018)
